## Recruiter’s Corner:

“Active First” provides potential recruits the ability to go active duty for 30 months to four years, and upon expiration of this first term they can opt to enter the National Guard or stay on active duty.

Being able to recruit for the active component opens up a new group of G-RAP targets that you can get paid for. See SSG Crane or SGT Fain for details.

## Commander’s Comments:

This is our final pre-orient shield weekend. Some final briefings on Saturday, and some last minute SRP and we’re off to Japan.

I hope you recognize and appreciate the rarity of this experience. I have been in the National Guard for 16 + years, and have never gone to AT anywhere but Fort Polk. Now I agree that there are few posts that rival Fort Polk, but I have to admit it will be nice to do something new.

There are a number of other opportunities being explored – “Adventure Training” – which are intended to help make being in the Guard that much more rewarding. Look for more opportunities in years to come.

For those of you that will attend AT in Louisiana, Drills will start being more Warrior-training oriented, and the OS guys will pick up the recruiting mission on their return. To all: keep up the good work!

**SNAKE 6 OUT!**
